

Sophie Lara Walton

User Interface / User Experience Designer

25 ne 5th St.
Miami, FL 33132
(217) 725-9492
sophielarawalton@gmail.com

OBJECTIVE

Dynamic UI/UX Designer with over five years of experience in delivering innovative and user-centric design solutions for 12 bar examination jurisdictions within the United States. Possessing a degree in Industrial Design from the University of Illinois, I am adept at translating complex ideas into intuitive and visually appealing interfaces. I seek to leverage my expertise and creativity to drive exceptional user experiences in a challenging and collaborative environment.

PROFESSIONAL EXPERIENCE

UI/UX Designer - Remote

ILG Technologies - Ankara, Turkey & Sarasota, FL

AUGUST 2019 - PRESENT

- Lead the design process from concept to execution for 12 key clients, consistently meeting project timelines and exceeding client expectations
- Collaborate closely with cross-functional teams including design leads, developers, quality assurance leads, and clients to understand project requirements and deliver optimal user experiences
- Design wireframes, prototypes and mockups by utilizing Adobe XD, Sketch, and Figma to transition into my role as a front-end developer (HTML/CSS)
- Implement design principles and best practices to ensure consistency and WCAG compliance for accessibility
- Contribute in establishing guidelines for components and interactions
- Manage multiple projects simultaneously, demonstrating strong organizational skills, the ability to prioritize tasks effectively, and exceptional communication skills
- Spearhead client meetings, ensuring the establishment of meaningful usability within Bar admissions experiences and promoting transparency in administrative portals

Web Designer - Remote

Freelance

OCTOBER 2020 - PRESENT

- Lead client meetings to develop project management timelines and execute timely product launches
- Strategize brand development to initiate user journeys based on comprehensive market research, identifying key user personas and tailoring designs with client objectives
- Translate client requirements and business goals into low- and high-fidelity prototypes, effectively communicating design concepts and gathering feedback for iterative improvements
- Write front-end development code (HTML/CSS) when applicable, ensuring seamless integration of design and functionality for optimal user experiences
